FONT
SECRETS
REVEALED

Fonts cannot be shared and when they do not work right, you are not allowed to fix them. Making your own typefaces is a black art, hidden in mystery.

A long time ago software programs were the same, but the free software movement has freed the knowledge, the tools, and the business of software.

Now it is time to free fonts. *On April 1st Dave Crossland reveals how to design typefaces using only free software—and how to make money doing it.*

March 31st: 13h00 Workshop*: Installing GNU/Linux and Free Graphic Design Tools on your own laptop
April 1st: 10h00 Fun and Profit ~ 13h00 Typeface Design Principles ~ 15h00 Font Editor Secrets
